

WHY THE COPPER STILL

Made here, double gold

Two things set our spirits apart: where they're made, and how they place.

Distilled on site

Every gin and whiskey we pour is distilled on site in our copper pot still.

Double gold, 2024

Our spirits won double gold at the San Francisco World Spirits Competition, 2024.

THE COPPER STILL

Distilled on site, in a copper pot still

We set up a still in Portland's Central Eastside because we wanted to taste every batch ourselves. Distilled on site, cut by hand, and poured for neighbors before it ever reaches a shelf.

ON THE MENU

What's pouring this week
