

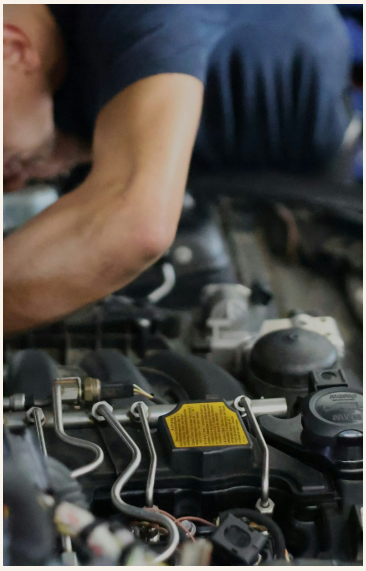
A guide from Precision Auto Care

From First Call to Back on the Road

From routine servicing to check engine lights, our ASE-certified techs handle it in-house.

Precision
Auto Care



The mechanics Denver drivers trust

Precision Auto Care is an independent repair shop on South Broadway, serving Denver car owners who want straight answers and solid work. Our ASE-certified technicians handle servicing, brakes, diagnostics and repairs on any make, backed by digital inspections with photos sent to your phone so you see exactly what we see. Every job carries a 24-month/24,000-mile warranty on parts and labor, so you're covered long after you drive off South Broadway. We tell you what needs fixing now, what can wait, and what it will cost.

01

Oil changes, done right

Full-service oil changes, fluid checks and inspections for every make, right here on South Broadway in Denver.

What's included in every service

Full synthetic or conventional oil
Oil and filter changed to the type and weight your make calls for.

Multi-point inspection
Brakes, tires, belts, hoses and fluids checked on every visit.

Photos sent to your phone
See exactly what our techs see, with a digital inspection report before any extra work starts.

24-month warranty included
Parts and labor covered for 24 months or 24,000 miles on the work we do.

02

Stop safely, every time

Brake inspection, repair and replacement for all makes, from ASE-certified technicians on South Broadway.

Brake problems we fix every day

Grinding or squealing noise

We inspect pads, rotors and calipers to find the cause and fix it the same visit.

Brake warning light on

Digital diagnostics check sensors and fluid, with photos sent straight to your phone.

Soft or spongy pedal

We test the master cylinder and lines, then bleed and adjust for a firm, safe pedal.

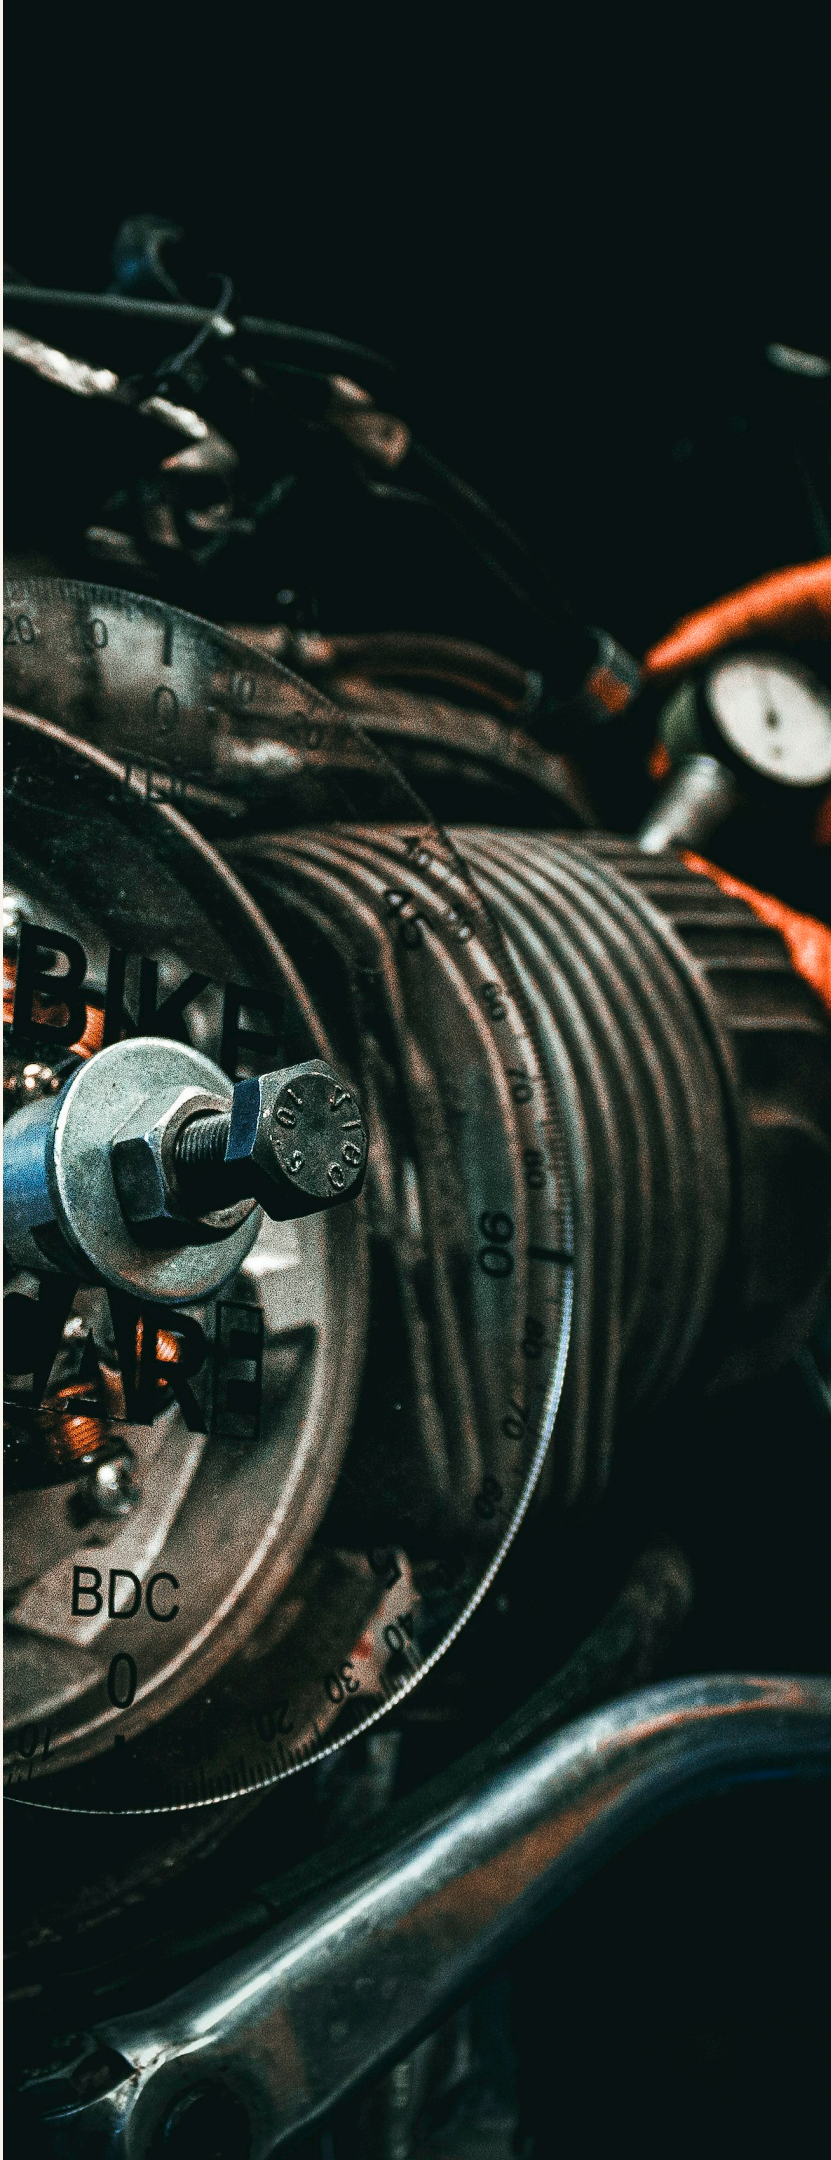
Pad, rotor & caliper replacement

ASE-certified technicians fit quality parts, backed by our 24-month warranty.

03

Check engine light on? Find out what's wrong

Our ASE-certified technicians run a full diagnostic scan



What a diagnostic scan covers

Full code scan
We plug in a professional scanner to read every stored code, not just clear the light and hope it stays off.

Plain-English explanation
We walk you through what the code means and what's actually failing, before any work starts.

Digital photo report
Photos of the exact part or wire at fault, sent to your phone so you can see what we see.

All makes and models
Domestic or import, older or new, our technicians diagnose and repair all makes in our South Broadway shop.

Built on Trust, Not Upsells

ASE-certified technicians
Factory-trained techs who know the diagnosis before they touch a wrench.

24-month/ 24,000-mile warranty
Every repair is backed by a warranty on both parts and labor.

Digital inspection photos
See the actual wear and damage on your phone before you approve the work.

Independent, Denver-based
Locally run on South Broadway, not a franchise chasing quotas.

How it works

From First Call to Back on the Road

1 **Tell us the problem**
Call (303) 555-0193 or request a quote online and describe what's going on.

2 **We inspect and diagnose**
Our techs run a full digital inspection and send photos straight to your phone.

3 **You approve the work**
Review the findings and price before we touch anything.

4 **Drive away covered**
Every repair carries a 24-month/24,000-mile warranty on parts and labor.
