

A GUIDE FROM PLOT & ROOT GARDEN SCHOOL

From choosing to *growing*

Three steps to get started, at your own pace.

Plot & Root
Garden School

Taught from the garden, not a *studio*

The courses began as notes from a working market garden: what to sow, when to feed the soil, how Christchurch's seasons shape the work.

Taught from the ground *up*

Plot & Root Garden School is run from our own no-dig market garden in Christchurch, where every lesson is grown, tested and filmed through the seasons.

01

Courses in soil, sowing and *seasons*

From soil and compost to sowing, planting and seasonal growing, our courses take you through a market garden year.

COURSES

Grow your first vegetable *bed*

Learn to build fertile soil, plan your beds and grow vegetables from first seed to harvest, without digging or sprays.

$119.00

Learn the way a market garden *grows*

A working market garden

Every lesson is grown and filmed in our own no-dig market garden, through every season of a South Island year.

Learn online, any time

Courses are online, so you can study whenever suits, from home.

Follow the seasons

Soil and compost, sowing and planting, then seasonal growing, in the order a garden actually grows.

HOW IT WORKS

From choosing to *growing*

1 **Browse the courses**
Look through what's on offer at /courses and choose where to start.

2 **Enrol online**
Sign up in a few minutes, any time.

3 **Learn at your own pace**
Work through the lessons whenever suits, online any time.

Start growing your own *food*

Soil, compost, sowing and seasonal growing, taught online from our Christchurch market garden.
