

ARCHITECTURE STUDIO · TORONTO

Houses and spaces shaped by light

We design custom homes, renovations and small commercial spaces across Toronto, with natural light, honest materials and close attention to how people live.

Atelier North Architects

ARCHITECTURE STUDIO

We design how you live, not just where

Every project starts with how a space is actually used, then earns its form from that.

01

A house built around how you live

We design custom homes for Toronto homeowners, from first sketch to final detail, with natural light and honest materials throughout.

Designed around your daily life

Site and light

We study the sun, the street and the lot before we draw a single wall.

Plans that fit your life

Room by room, we design around how your household actually lives.

Honest materials

Wood, stone and light chosen to age well and feel right underfoot.

Permit-ready drawings

Complete drawing sets prepared for City of Toronto permit and construction.

02

Grow your home without losing its character

We design renovations and additions for Toronto homeowners and developers

Why renovate with Atelier North

Licensed architects

Licensed by the Ontario Association of Architects, working to its standards on every renovation.

Award-recognized design

Toronto Urban Design Award 2022, for work that holds up in its neighbourhood.

Built on what's there

We study the existing structure before we design, so additions sit naturally on the original house.

Light and material first

Natural light and honest materials guide every renovation, not just the finishes.

03

Interiors shaped by light and daily life

We rework interiors for Toronto homes and small commercial spaces

What stands behind the design

OAA licensed

Licensed by the Ontario Association of Architects

Award-recognized design

Toronto Urban Design Award 2022

Homeowners and developers

We work with both, across Toronto

Light-led design

Rooms planned around natural light and materials

Designed around how you live

Natural light

Rooms are planned around daylight, orientation and the way the Toronto seasons move through a site.

Honest materials

Material choices that age well and read clearly, with nothing applied and nothing hidden.

Licensed architects

Licensed by the Ontario Association of Architects, working to its standards of care.

Recognized design

Winner, Toronto Urban Design Award 2022.

OUR PROCESS

How we work together

1

Initial conversation

We meet to discuss your site

2

Concept design

3

Drawings and permits

We prepare construction drawings and coordinate permit submissions with the City of Toronto, working alongside your contractor.

4

Construction support

We stay involved through construction, visiting site and answering questions, so the built work matches the drawings.

Custom Home, Toronto

Kitchen Renovation and Addition, Toronto

Before you get in touch

Which Toronto neighbourhoods do you work in?

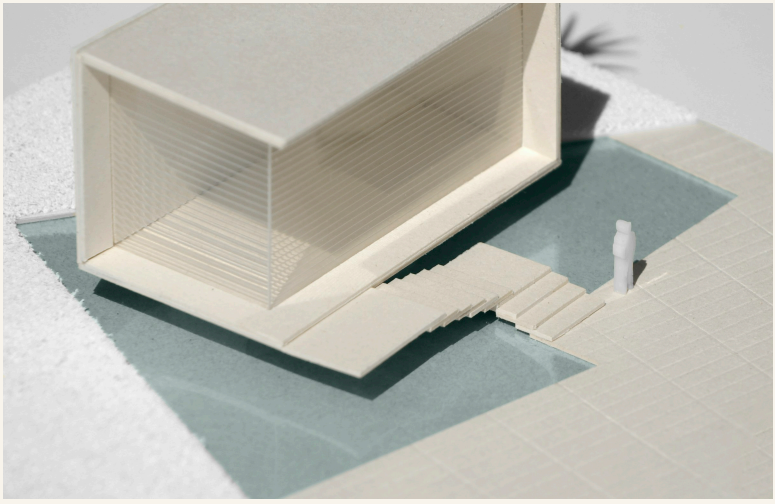

We work across Toronto, from the first meeting through to construction support.

Are you a licensed architecture practice?

Yes. We are licensed by the Ontario Association of Architects.

Do you handle permits and construction drawings?

Yes. We prepare construction drawings, coordinate permit submissions and stay involved through construction.

Let's shape your next space

Tell us about your site and your project. We answer every enquiry from our Queen Street East studio.
